FLOOR PREP & CLEANING SOLUTION

EPOXYMASTER FLOOR PREP & CLEANING SOLUTION IS A LOW pH ORGANIC SALT USED TO CLEAN AND ETCH FLOORS PRIOR TO THE APPLICATION OF EPOXY FLOOR COATINGS.

UNIT SIZE

- 1 Quart Unit (covers up to 480 square feet).
- 5-Gallon Unit (covers up to 9,600 square feet).

IMPORTANT

EpoxyMaster products should not be applied to aluminum, chrome and other decorative metals or trim. Some "stainless steels" are misnamed and can be stained. Check inconspicuous area for staining before applying.

DIRECTIONS

1. Thoroughly sweep entire area to be etched, removing all debris, peeling paint, or loose concrete.
2. Spray down entire area with water.
3. Mix one part EpoxyMaster Prep Solution with 4 parts water.
4. Brush, mop, or flood the EpoxyMaster Prep Solution on the area to be etched making sure that the solution is spread evenly over the entire area. Special care should be taken in treating oil and grease stains on floors.
5. Spray etched area with water flushing to sewer or out-of-doors.
6. Etched area should be allowed 24 hours to dry before applying the EpoxyMaster epoxy floor coating.

Organic Salt Acts Like An Acid  Non-Fuming
Non-Corrosive  Phosphate Free
Contains No V.O.C.s.
